[page 1]

No. 10 East 68th Street
New York, May, 18, 1904.

Dear Anna D.M.

The letter of Mrs. Taylor Upton came this morning at breakfast table – The pictures that she wants are in the back attic – I think on the pile of tracts – by the south window – if not there – they are somewhere on the writing table – in the room – you may send two or three of each – do them up carefully – you know they are very tender – and break easy – This begins to call on you pretty soon after I leave –

[page 2]

There are stamps in the 2d drawer of my desk – 5 & 10 cts stamps are in an envelope – Mrs. Upton has written Mrs. Sweet – She doesn't say in this whether she wants them sent to her – or to the St. Louis direct –

You may answer all such letters – as you think they ought to be – I trust you completely –

What you don't know – Mrs. Sweet may inform you – or your two heads together – may decide things –

I left a bill of the Photographers for Mrs. Sweet to pay – she can take money that comes in to pay with and keep an account – She nor no one -- <u>can</u>

[page 3]

<u>draw money</u> on my account at the bank –

-- in the left hand <u>pigeon hole</u> -- in my desk – are the bills of Bake & Taylor – M'Clurg -- & c – but if any of them send money orders you will keep an account of them – and carry them to Mrs. Sweet – She has the key to my safe –box—in which are all my papers --

We had a pleasant trip – found a Cousin – husband & daughter – from (?) on board – Mrs. Catt & Miss Mills staid with them – the next night after -- Well it seems hardly possible that tomorrow -- the 19 – will see out on old ocean all connexion with land cut off –

[page 4]

I had a note from Mrs Harper at the 5th Avenue Hotel – and one from Mrs Catt, – both accepting my <u>invitation </u>– not (?) to call upon me –

I will write you in the morning -- before sailing – This letter must do for all of you there – Mrs. Sweet – Mrs. Cook – and yourself –

Yours with abiding love – Gilbert included –
Susan B. Anthony

I left some good photographs in the <u>box</u> top of my desk – you can get them if you should have a call for them --
